

HARSITH K

harsithkumar36@gmail.com 7449076146 Kothagiri, Tamil Nadu LinkedIn GitHub

SUMMARY

Aspiring software developer pursuing a B.Tech in AI & Data Science, skilled in Python, Java, and machine learning. Practical project experience spans IoT automation, weather prediction, and AI-driven farming solutions, supported by internships in machine learning and deep learning. Strong learner with a collaborative mindset, seeking an entry-level role to contribute to impactful technology solutions.

INTERNSHIP EXPERIENCE

Machine Learning Intern

F5 Coders

Gained hands-on exposure to the machine learning workflow, including data preprocessing, model selection, and evaluation of basic algorithms such as regression and classification

Deep Learning Intern

Trios Technology

Gained foundational knowledge of neural networks and deep learning principles through practical, project-based learning.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science

2023 – 2027

Nandha Engineering College, Erode, Tamilnadu

CGPA: 8.1/10

SVGV Matriculation Higher Secondary School, Coimbatore

2021 – 2023

Percentage: 83%

TECHNICAL SKILLS

Programming Languages

Java (Basics), Python, HTML, CSS,

Data Analysis

Pandas, Numpy

Machine Learning & NLP

Regression, Classification, Sentiment Analysis

Core Concepts

Machine Learning, Data Visualization, SQL And DataBase, Business Understanding

PROJECTS

Weather Forecasting System

Developed a Weather Forecasting System that predicts weather conditions using historical and real-time meteorological data.

AI Enabled Smart Farming Support System

Developed an AI-Enabled Smart Farming Support System to assist farmers with crop recommendations, disease detection, or yield prediction using machine learning models.

CERTIFICATIONS & ACHIEVEMENTS

Tableau- Data Visualization

Web Development- Cognifyz Technology
